Reclaim your forest's potential

FOR FOREST OWNERS – GUARANTEED EARNINGS FROM YEAR 1

Working together for Kiwi landowners, and the environment

- Get your forest earnings back on track
- Grow new revenue on your existing forest asset
- Earn a rental on existing NZUs earned
- Better manage rising costs, increased regulations and a challenging market
- Generate more long-term options for your forest assets

Our Growth Leases are designed for owners of existing forest blocks (planted post 1989). Working in partnership with New Zealand's leading experts in growing and managing trees under the ETS, you can earn a stable, long-term income on your existing forest, without having to deal with complex rules and rising costs.

How it works

You
Lease us your existing forest – while keeping ownership of your land and timber.

We
Actively manage permanent forests and deal with every aspect of the ETS [1].

Earnings
You can earn a new annual income stream in exchange for carbon credits during our agreement.

Carbon units can be returned to forest owners at the end of our agreement to meet harvest surrender requirements.

[1] Under our agreement, forests intended to be harvest can continue to be managed by you. Permanent forests will be actively managed by us to transition to native over time.

Leading with nature

The NZ leaders

With more than 100,000 ha owned or managed – including 10,000 ha of native trees, we're one of the largest contributors to New Zealand's ETS.

We're working for the good of our community and the environment. Over 6,000 landowner partners have benefitted from our lease payments, providing vital income to the rural community.

Co-invest with experts

We've got a successful track record working with local partners in the ETS. Over the past decade, we've returned over $120 million to forest owners and farmers.

How can we work together?

01 Call or drop us a line and we'll arrange a meeting at your place.

02 Working with you, we'll establish the best way to reclaim your forest's value.

03 We then tailor a specific package and offer for you, based on your choice of lease income or NZU option.

04 We can also meet with your independent advisors.
